

Grease Interceptors

Lee's Precast Grease Interceptors offer high performance grease removal - decreasing maintenance costs and deterioration of collection systems. Our interceptors effectively manage effluent waste, saving money and aggravation by protecting septic systems and sewage lines from plugging up and failing.

As with other such containment vessels grease interceptors must be cleaned regularly to maintain maximum performance and remain effective.

Grease Interceptor Product Catalog (Custom Built Interceptors Also Available):

150 Gallon Grease Interceptor - 3" Wall
